Understanding Your Case Capacity

07/10/2026 2:49 pm EDT

If you subscribe to a level of maximum plans in SIPS and find that you are out of capacity to add more, you can upgrade your subscription, delete old cases, or deactivate cases you no longer need active to get back under the maximum. If you are over or out of capacity, you simply won't be able to add a new case (that button will be greyed out). All other functionality in SIPS to access and update existing cases in SIPS will still work even if you have reached or are over your case limit.
