

Creating a Structured Income Plan Using the Retirement Fiscal Cliff Function for a New Client

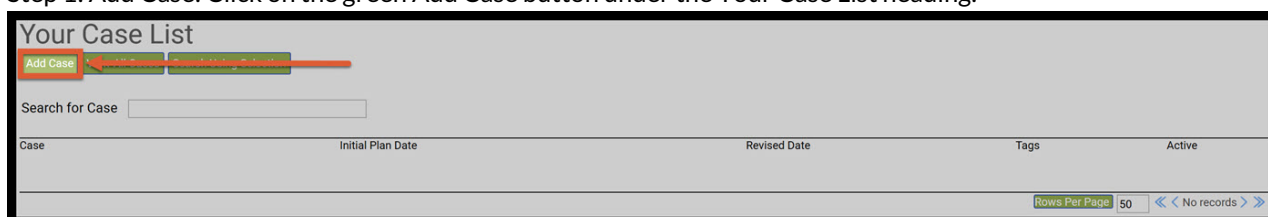

10/14/2025 2:34 pm EDT

Use the Retirement Fiscal Cliff function to quickly build a structured income plan for a new client. This guide outlines the process for creating a preliminary planning scenario, beginning on the Your Case List Landing page. The instructions below are based on a hypothetical client who provided the following key data points. All the information that is entered in on the Tools Landing page can be edited.

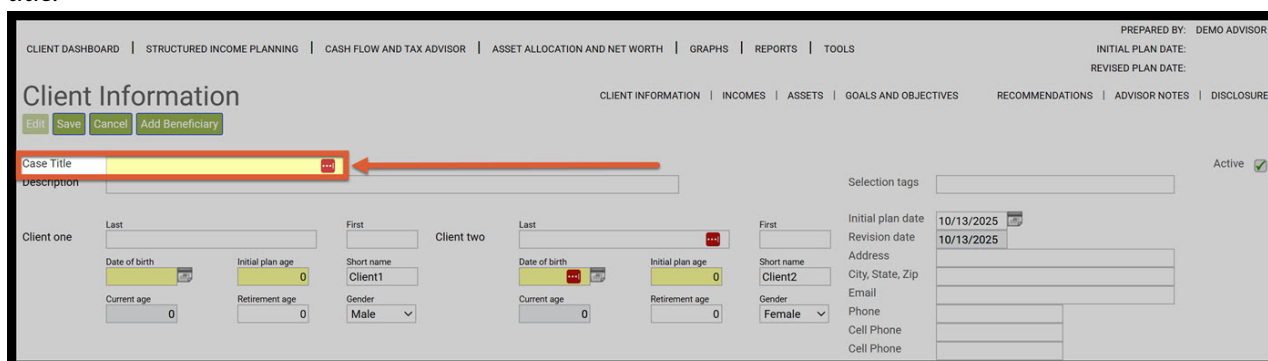

New Client Dashboard Information:

- Age: 55, they would like to retire when they turn 67
- Wages/Income: \$100,000 yearly wage
- Annual Savings is at \$12,000 per year
- Current NestEgg Retirement is at \$500,000 with an asset allocation at 4%
- They will be getting \$18,000 in SS once they retire at the age of 67
- They will be getting a pension once they retire starting at \$48,000 per year
- They would like to have a target income when they retire starting at \$70,000 and the inflation assumption is at 2.5%

Step 1: Add Case: Click on the green Add Case button under the Your Case List heading.

Step 2: Case Title: To get to the tools page, it is mandatory in SIPS to enter in a title and an initial age. Enter in a case title.

Step 3: Initial Plan Age: Enter in age.

Tools

Replicate Discovery Data as a Planning Scenario

After entering your client's income information and current assets in the client details screens, use this tool to import that information to create the rudiments of an initial income planning scenario.

The Retirement Fiscal Cliff

This tool allows you to enter some basic data about a client, including total savings and expected incomes, and quickly build a planning scenario that may show potential future issues such as when a client might run out of money, etc.

Step 7: Years Until Retirement: Enter in how many more years your client will like to work.
